Amino acid sequence of the N-terminal half of the ectodomain of *P. berghei* E-ring. The N-terminal half of the ectodomain of the merozoite surface protein 1 (MSP1) of *Plasmodium berghei* was expressed as a His-tag fusion protein in *E. coli*. The protein was purified by anion exchange, reversed-phase and hydrophobic interaction chromatography and identified by polyacrylamide gel electrophoresis and immunoblotting. It was digested with trypsin and the peptides were isolated by reverse-phase high performance liquid chromatography. The peptides were sequenced by Edman degradation. The complete amino acid sequence is MSEVLFQKSLASDPQQ, corresponding to positions 29-50 of the N-terminal ectodomain. This is the N-terminal half of the ectodomain of the E-ring.

Dating New People How to Start a Conversation that Gets Me Wanting To Talk To Her We've all been there, when you're talking to a cute person and you're having fun but no sparks are coming up yet. You're just thinking about how much you want to be his second. Unfortunately, it seems like there are quite a few people that don't like talking to new people. If you've been on some dates or have talked to a lot of people, you're probably tired of the conversation. And if you're a shy person, you're probably going to stay shy and avoid the conversation. Then you need to know what to do if you're in a situation where you're talking to a new person and you don't know what to say. If you're the shy type, you're not going to want to just blurt out, "I'm glad you said that," "I love your shoes" or "I'd love to make out with you." The only
